EDUCATION

Kryvyi Rih National Technical University
Master's Degree in Economics of Enterprises
[e.g. 2004 – 2009]

National University of Physical Education and Sport of Ukraine
Specialist Degree in Fitness and Recreation
[e.g. 2014 – 2016]

SUMMARY

Motivated Frontend Developer with solid skills in JavaScript, React, TypeScript, HTML, and CSS. Holds a master's degree in Economics and a background in ERP implementation (1C:Enterprise) for large manufacturing companies, providing strong business understanding. Built several projects with React and component-based architecture. Fast learner, responsible, detail-oriented, with experience integrating server data.

PORTFOLIO

● **Wings of Help** – React-based volunteer platform where users can create help requests and respond with offers. Implemented authentication flow, request filtering, and status management. Integrated frontend with REST API and added multilingual support (EN/UA).

[Demo](#) [GitHub code](#)

● **React Phone Catalog** – a responsive web application for browsing mobile phones, featuring parameter-based filtering, search, sorting, the ability to add products to favorites and cart, and state preservation via URL parameters.

[Demo](#) [GitHub code](#)

● **Dia** – It's a landing page for Strategic Agency - Air (Dia)

[Demo](#) [GitHub code](#)

● **The-Met** – It's a landing page for The Metropolitan Museum of Art or The MET.

[Demo](#) [GitHub code](#)

● **2048 Game** – This is a JavaScript implementation of the classic 2048 game. The game features a 4x4 grid where players combine numbered tiles by sliding them with arrow keys, aiming to reach the 2048 tile. It includes core game mechanics such as tile merging, random tile generation, score tracking, and game over/win states. The project showcases skills in JavaScript game logic, event handling, and DOM manipulation.

EXPERIENCE

Frontend Developer

Graduate Certificate | 2022 – 2025

Development of applications using React with JSX, hooks, router, class-based and functional components.

Technologies: JavaScript, React, TypeScript, HTML, CSS, BEM

Fitness Trainer

Universal Fitness Solution LLC | 2016 – 2026

Delivered personal and group training sessions, helping numerous people lose weight and achieve a strong, healthy body.

ERP Implementation Specialist / Business Analyst INFORS, Limited Liability Company | 2010 – 2016

- Implemented an ERP system (1C:Enterprise) at several manufacturing enterprises in Ukraine, which automated accounting and significantly reduced manual operations as well as the time required to prepare monthly reports for management by 50%;
- Trained over 30 employees from various departments in effective system usage;
- Coordinated the full implementation cycle—from production planning, warehouse and HR accounting to the creation of management reporting.
